

Place accents

with the superior scratch-resistance of DURATEC® glazing

Incorporate glazing to give your garage an individual look, matched to the windows, front door and the architectural style of your home.

The DURATEC® plastic glazing in Hörmann's sectional doors is exceptionally resistant to scratches and remains clear even after repeated washing and heavy use.

Glazing versions for ribbed styles

Glazing type D

For all garage door types and side doors with ribbed appearance, in the Woodgrain and Decograin® surface finishes. Glazing frame: Synthetic, in black or white, or in door colour on request. Glazing: Depending on the door type as single or double synthetic panes, clear or crystal-structured. Clear view: 602 x 132 mm

Aluminium-framed compound windows

For the door types and side doors, with ribbed appearance and surface finish in woodgrain-embossed or Silkgrain®. Glazing frame: Aluminium tubular profiles stained in natural colour (E6/EV1), on request in the colour of the garage door. Glazing: Depending on the door type as single or double synthetic panes, clear or crystal structure. Special glazings and expanded mesh on request.

All of the illustrated panel glazing is also available in conjunction with doors with M and L ribbing. **// NEW**

A fine example of the Sunrise C-panel glazing on a 2500 mm wide garage door.

Panel glazing Classic and Sunrise styles

Glazing frame and decorative latticework: Synthetic standard colour white, on request in garage door colour.

With Decograin® garage doors the frame is supplied in a paint finish to coordinate with the colour of the style.

Glazing: Depending on the door type as single or double synthetic panes, clear or crystal structure.

Note:

Glazing cannot be incorporated into the two bottom door sections.

An example of glazing elements for design doors is shown on page 31.
